DETAILED ACTION

Response to Amendment

1. The amendment filed on 12/30/09 is sufficient to overcome the Masui, Hayaashi, and Arisawa references. As the result of the amendment, claims 4, 7, 9 were cancelled and claims 1-3, 5-6, 8, 10-13 are still pending.

Claim Objections

2. Claims 1 and 8 are objected to because of the following informalities: There are a lot of typing errors, for example:

claim 1: a) said **anteann** including a loop of coil..(line 5 of page 2), b) **a the** antenna or ...(line 8 of page 2), c) **wherien**" when the second transmission means....(line 19, page 2), d) the **anttenna** and another current flows **thorough** a remaining portion of the loop of coil (lines 20-21 of page 2).

claim 8: a) an wireless reader/writer mode of operation: **and and** (lines 17-18 of page 4); b) **wherien** when the second transmission unit...(line 20 of page 4); c) the **anttenna** and another current flows **thorough** a remaining portion....(

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2618

4. Claims 1-3, 5-6, 8, 10-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitations:

a) "reader/writer function for non-contact IC card, comprising:" line 3 of page 2, should amend as reader/writer function for **a** non-contact IC card.... since an article **a** or **the** helps to understand and emphasizes the limitation;

b) "an external wireless read/writer" in line 7-8 of page 2, should amend to **the** external wireless reader/writer, since this limitation has been used in line 4 of page 2;

c) "an external non-contact IC card" in line 9 of page2 should amend to **the** external non-contact IC card since this limitation has been used in line 5 of page 2;

d) "only to half of the windings (line 20 page 2) should amend to only to **a** half of the windings.

e) "current from the second transmission means" (line 19 of page 2) should amend to **a** current from the second transmission means;

f) "another current flows (line 21 of page 2) should amend to **an** another current flows...

Claim 8 recites the limitation:

a) "only to half of the windings (line 21 page 4) should amend to only to **a** half of the windings.

b) "current from the second transmission means" (line 20 of page 4) should amend to **a** current from the second transmission means;

Art Unit: 2618

c) "another current flows" (line 22 of page 4) should amend to **an** another current flows...

Claims 2-3, 5-6, 10-13 are rejected for dependent upon the independent claims that have been rejected.

It is also required Applicant to check other errors may still be in the claims.
